OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Latest Stack Overflow Developer Survey has been analyzed (dataset cleaned and prepared)
- Key trends and patterns in current and future skill requirements:
 - JavaScript is the programming language most used currently and most desired in the future.
 - PostgreSQL is the most used database and most desired in the future.
 - Amazon Web Services is most used and desired platform.
 - Node.js is most used web framework, React is most desired.
- Dashboard to provide insightful visualizations
- Most respondents 25-34 years old

INTRODUCTION

- Purpose: Analyze recent data to identify emerging and future skill requirements in the rapidly evolving technology landscape.
- Target Audience: Human Resources (HR) and Management
- Value: Capture the most sought-after programming skills to be prepared for employee training and future hiring.

METHODOLOGY

- Data Collection
 - APIs
 - Stack Overflow Developer Survey 2024
- Data Exploration
- Data Wrangling
 - Dealing with Missing values, Duplicates, Outliers
- Data Visualization
 - Identify Patterns and Trends
- Presenting Findings
 - Dashboard creation
 - Presentation

RESULTS

PROGRAMMING LANGUAGE TRENDS

Current Year

Top 10 Languages Used

Next Year

Top 10 Languages Desired

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- JavaScript remains as the top programming language current & future
- TypeScript gaining popularity in future
- SQL still second most popular programming language

Implications

- JavaScript is still a sought-after skill for technology professionals.
- Related languages to JavaScript also popular.
- Due to rise in data, SQL remains top contender.

DATABASE TRENDS

Current Year

Top 10 Databases Used

Next Year

Top 10 Databases Desired

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- PostgreSQL most popular and remains in future.
- Redis and SQLite are gaining popularity.
- Supabase is a new database showing up as desired top 10.

Implications

- PostgreSQL is a top skill for data professionals.
- MySQL no longer the second top database.
- Easy to use new database solutions are gaining popularity.

DASHBOARD

<https://github.com/jtri99/IBM-CapstoneDataAnalyst.git>

DASHBOARD Current Technology Usage

Top 10 Languages Used

Top 10 Databases Used

Top 10 Platforms Used

Top 10 Web Frameworks Used

DASHBOARD Future Technology Trends

Top 10 Languages Desired

Top 10 Databases Desired

Top 10 Desired Platforms

Top 10 Desired Web Frameworks

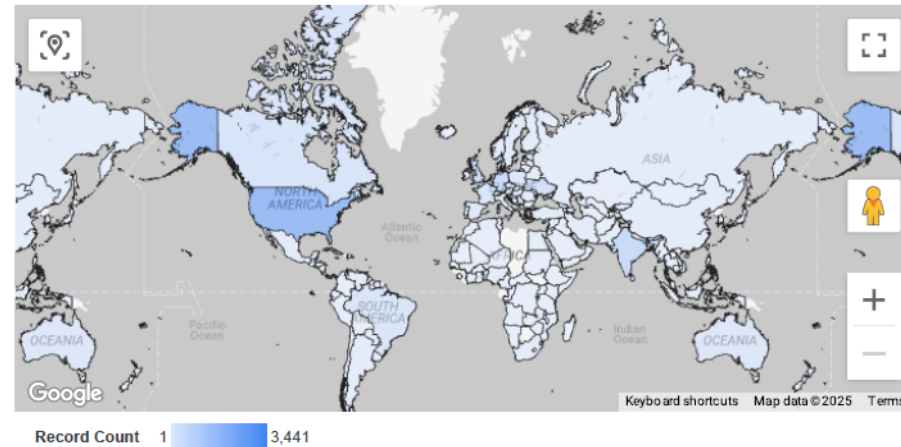

DASHBOARD Demographics

Respondents by Age

Respondent Count by Country

Respondent Distribution by Education Level

Respondent Count by Age, Classified by Education Level

DISCUSSION

- We can see the similarities and differences between technology trends now and in the future
 - JavaScript
 - AWS
 - PostgreSQL
- Demographics:
 - Most respondents 25-34 years old, from North America, Bachelor's Degree

OVERALL FINDINGS & IMPLICATIONS

Findings

- Rapidly evolving technology (new in desired: Go, Supabase)
- Larger portion of relatively younger demographic (<40)
- AWS and Microsoft Azure top desired platforms

Implications

- We need to keep track of skills in demand and adjust accordingly.
- Need to hire new talent in industry.
- Need to update employee training accordingly.

CONCLUSION

- Latest Developer Survey analyzed to identify key insights regarding technology trends.
- Programming languages most popular: JavaScript & SQL.
- Technology companies must be aware to stay competitive.
